

# CELEBRITY ENDORSEMENTS

Posted weekly across Instagram and Twitter by leading celebrities and influencers

As part of the highly successful Celebrity Secrets lifestyle brand, we offer a wide variety of celebrity endorsement packages, including the option of video, image and caption or a brand ambassadorship across both Instagram and Twitter platforms. Celebrity Secrets work with a large portfolio of leading celebrities and social media influencers.

Our partners can endorse everything – from the latest fashion trends, fragrances and beauty products, to travel destinations and cutting-edge health and fitness practices. These celebrity endorsements are particularly effective when working across the much-

loved themes of the Celebrity Secrets lifestyle series, giving followers the opportunity to go behind the scenes and learn which products, services and brands their favourite celebrities both know and love.

**“Social media allows you to engage and interact with consumers unlike any other platform”**

The brand value added by such celebrities on social media can be a long-term marketing asset for companies, and the results from these call-to-actions can garner immediate

results. Due to Celebrity Secrets’ unique position in the market place, we understand the shared values between the brand and the talent, ensuring the relationship is authentic and natural, in order to generate the best level of engagement.

By connecting brands with celebrities, we provide consumers all the information they need to live the high life like their favourite stars. This provides companies with the perfect shop window to promote their brand message on social media platforms, where followers are highly susceptible to celebrity lifestyle content.
