Find your dream car with our pick of the finest models on sale in showrooms throughout the South of England

## A brand new retail experience

AT BEADLES JAGUAR LAND ROVER, we have developed a brand new retail experience for you, having recently relocated to new centres in Southend, Essex and Watford, Hertfordshire.

Once inside, you will discover more space and freedom to explore the entire Jaguar Land Rover range in contemporary environments designed around you. The opulent design of the new retail spaces offers relaxed customer seating areas, interactive vehicle colour and trim stations, brand heritage displays and much more. You can revel in all of this while enjoying barista style coffee and delicious cake!

Whether you are looking for a new or approved used model, our teams work diligently to find you the perfect vehicle. We also provide comprehensive aftersales support and services, with a strong team of manufacturer-trained technicians, dedicated to caring for our customer's Jaguars and Land Rovers.

What's more, our friendly and knowledgeable parts teams are on hand to work with you to create a vehicle tailored specifically to your lifestyle,

needs and wants. The options really are endless.

Our sales, aftersales and parts teams are all proud to provide industry-leading customer service, offering you a retail experience like no other.

It's time to test drive our spacious new showrooms for yourself!

## For optimum safety and durability

MANY MODERN CARS rely on air suspension modules these days – and while most are incredibly tough and durable, when they do eventually fail, they can be expensive to replace at main dealer prices.

Thankfully, German suspension manufacturer Bilstein has the perfect solution, in the form of its own original equipment quality units to replace them with, at far less of a cost. Available through the company's network of specialist aftermarket retailers, these brand-new air suspension modules use precisely the same technology as the parts they replace. No surprise really, in many cases, the original units were created by Bilstein in the first place!

In addition to offering OE quality, the numerous product benefits are obvious. Just like the factory original, the Bilstein B4 air suspension module guarantees the quickest ever reactions to road and vehicle conditions. The result is excellent comfort and benign driving characteristics, with high reserves of damping power for maximum safety. The Bilstein gas pressure technology provides

constant damping power under any axle load.

Air suspension systems allow the recipient vehicle to adjust to different height positions by varying the air pressure in the bellows. This advantage is particularly notable when levelling extremely heavy loads. Various aerodynamic and

terrain positions are also possible with this system. If you're replacing or upgrading the air suspension on your vehicle, it pays to fit the safest and highest performing solution possible.

So, why not opt for what most manufacturers choose in the first place? [bilstein.com](http://bilstein.com)

## Volkswagen showroom puts customers first

SINCE THE OPENING of our new showroom in October 2016, Martins VW of Camberley have gone from strength to strength and become the first-choice Volkswagen dealership in both Surrey and Hampshire.

The purpose-built retail centre is located on the London Road, and has been on its current site for more than 30 years. The product of a significant investment, we offer a large selection of new and pre-owned Das Welt Auto approved Volkswagens.

Our current range of Volkswagens has expanded even further, covering the latest award-winning SUVs – which now include the T-Roc, Tiguan, Tiguan Allspace, all-new Touareg, with the latest Innovation Cockpit, and the soon to be released T-Cross.

In addition to our state of the art showroom, we have recently refurbished our separate Aftersales Centre, also located on the London Road, which offers a range of services and parts for your car. Martins Group, run by CEO Terry Handley,

offers a personal service and has done so since the turn of last century, when the group was established in Winchester. As a family business, we have no shareholders to drive us towards profits at all costs. As a result of our family ethos, we place a higher value on service and quality, with a particular emphasis on delivering value for money.

We are continually trying to build an atmosphere that is both welcoming and professional in our Sales and Aftersales environments, employing well-trained staff to look after your needs in all areas of the business. This means with every decision we make here, we put the customer first.

## Confidential, non-bank lending on luxury assets

CLASSIC CARS are the epitome of an untapped source of capital. With sales that continue to dominate the luxury market and value appreciation of over 330%\* in the last 10 years, they represent an asset class that is often unleveraged as a source of liquidity.

Borro Private Finance is a boutique finance company that specialises in providing loans against classic cars and other luxury assets. Founded in 2008, our services provide classic car collectors and enthusiasts with more ways to manage their classic car investments, allowing them to gain an additional revenue source to expand collections, acquire rare finds or accommodate their needs for liquidity.

Our network of respected classic car experts ensures all cars are handled and valued appropriately and help to deliver unique solutions to clients without being rushed into a sale. Teams in the UK and US work to foster deep client relationships, enabling our clients to receive solutions tailored to

their specific needs. Starting at £100,000, loan terms are flexible and funds are available quickly and discreetly.

## Modern cars don't need tuning?

CRYPTON TUNING, back in the day, was the thing you did to ensure your car was at the top of its performance. Everything aligned and firing just at the right time, with perfectly balanced stoichiometric air and fuel ratios.

**Supercars**

Newer supercars are electronically controlled and frankly, could not benefit from a Crypton tune since engine performance is electronically managed, allowing your car to perform beautifully. However, the electronic engine management means the manufacturer can make one mechanical engine and separate it into several derivatives. Horse power, torque and litre capacity derivatives are software controlled. So, 2ltr and 4ltr engines are the same; the difference being the software.

**Upgraded Software**

So, if manufactures can switch performance settings,

can you? In a word, yes. Viezu Technologies Ltd can upgrade your vehicle's software. You can get a modern-day Crypton tune, only this time, it's all done by using computers.

**Performance Tuning**

Viezu launched its 650bhp Jaguar F-Type Predator in 2016, receiving a great deal of attention. You may be interested to know, this car remains the world's fastest F-Type, having recently been upgraded further to 670bhp. Proving the point, you can change your car, without changing your car.

**Supercar Super Performance**

Viezu have 100+ installers of its software across the UK. It's Warwickshire head-office is regularly awakened with the roaring sound of vehicles having software upgrades.

**It's not just Jaguars, any car is upgradeable!**

## Make the right impression in a luxury rental

HERTZ DREAM COLLECTION allows you to hire the car of your dreams.

Situated in Bayswater and at Heathrow, Hertz Dream Collection places you effortlessly into your car of choice from a large stable that includes the very best from the world's most iconic manufacturers, including Porsche, Bentley, BMW, Audi, Ferrari, Lamborghini, Aston Martin, Range Rover and Rolls-Royce.

*"Sometimes it's not about the destination but how you choose to travel there."*

That's the philosophy behind Hertz Dream Collection; enjoy the flexibility that a luxury

rental service can provide, whether a Bentley 4x4 SUV for a family weekend or a Ferrari for a grand tour, we have the correct fit for whatever your adventure.

Our stunning collection also allows you to rent and test drive your dream car before you commit to the sizable purchase price. It's a sensible idea to check the car fits your needs, whilst not feeling pressured from an enthusiastic dealer.

## Authenticity, coupled with new technology

THE MORGAN SPORTS CAR has been in continuous production since 1909. The brilliant, simple, lightweight design of HFS Morgan created an accelerating machine almost unequalled at that time. Whilst the Morgan Cyclecar was primarily a road car, it has always been a contender in motorsport from reliability trials, racing and record breaking performances to this day. The four-wheeled Morgan has retained its instantly recognisable looks for 80 years, but under the long, louvred bonnet lies a modern engine and the latest technology. It represents a fabulous blend of nostalgia meets cutting edge. Tradition meets modernity. There is no other English car manufacturer who can boast such a history.

In keeping with contemporary priorities, the Morgan is unique in its lack of impact on the environment. Quite apart from the conformity

to current emissions regulations, Morgans are built using natural materials (various woods, aluminium and leather), made by hand (men not robots) they retain their values and so are always worth restoring or repairing. Any re-build recreates the Morgan using mainly factory supplied modern parts and to the latest standards. Upcycling at its best! Once a Morgan has been built it will last, literally, more than a lifetime.

In celebration of the future, Morgan Motor Company have just announced their intention to celebrate their 110 year anniversary in 2019, with a range of performance and styling upgrades for every model at no extra cost to the customer. The current model range comprises the Morgan three-wheeler, the Plus 4 and the Roadster.

For more details on this truly historic, yet contemporary

marque, contact us.
