

Gadgets and Tech

Feed your inner geek with the latest technology (or treat your beloved geek for Valentine's Day) - here's a selection of cutting-edge ideas for the home, the commute, the business trip and the great outdoors

Be my Valentine

THE NUU MOBILE G3 SMARTPHONE with its dual glass casings now in ruby red colour creates a striking and unique design. This is a beautiful design with high-tech features at an affordable price. We are proud to say this is the most advanced Android SIM-free phone that NUU Mobile has designed to date.

You might not have heard of NUU Mobile yet, but they have been quietly expanding throughout the US, Asia and now UK and Europe, bringing consumers a better choice in affordable premium smartphones. Their phones are SIM-free so you choose your own network and save money by finding the best deal.

Nolan Newman, NUU Mobile, said: "At NUU Mobile we feel users shouldn't have to sacrifice on design or features because of their budget."

Taking the perfect picture is simple with the G3. It has 13MP + 5MP dual rear cameras with auto-focus and dual flash as well as f2.0 aperture for use in low light, beautifier filters and burst mode are perfect for close-ups and wide-angle shots. The 13MP front camera is optimised for selfies. It has 64GB memory for plenty of storage, plus there's 4GB Ram and an Octa-Core processor to support 4K video.

Latest security functions including built-in facial recognition ID and fingerprint ID scanner. You also get NFC technology for tap and pay, and Dual SIM cards for handling two different phone numbers within one phone.

UK customers can expect the best service

with NUU Mobile. All phones have a two-year warranty with a UK-based sales and support team operating seven days a week.

On your marks, jet-set, go

WHETHER YOU ARE A CONSTANT COMMUTER between Heathrow and JFK or just looking for a hassle-free way to take your suit to work, the PLIQO ultra-compact garment bag is just the ticket.

Billed as the smartest garment bag in the world, and designed here in London, PLIQO's signature Carry-On bags fold your suit down to the size of laptop case, while keeping it as crease-free as possible.

It's all down to a unique magnetic hanger system that holds your jacket and trousers in place, before folding them into the neatest of packages.

As if this feat weren't enough, the designers have crammed in a number of additional features - including two full-width external pockets, a slip pocket for a shirt or laptop, and two handy internal pockets for your travel must-haves.

It's not big, but it is clever

The Carry-On bag will comfortably fit in airline-compliant cabin luggage - and for adventurous spirits - into many backpacks and cycle panniers too. And they are carry bags in their own right, coming with neatly-recessed grab handles and leather-trimmed shoulder straps.

With a PLIQO bag, you can set out for your next business trip or country house weekend as casual as you please, secure in the knowledge that your favourite formalwear will emerge at the end of your journey in pristine condition.

Exclusive power bank offer for Evening Standard readers: use code 'LES2019'.

Still buying your Apple Macs for cash? There is a better way

FOR YEARS BUSINESSES HAVE BEEN buying their computers, keeping them past their short warranties, clogging up their cash flow and frustrating their people with increasingly slow machines - and then ending up with a cupboard of old laptops that they can't even give away.

FLAT WHITE.
DAILY COMMUTE.
GYM SESSION.

27" iMAC.

Only one of these is less than £2.50 a day

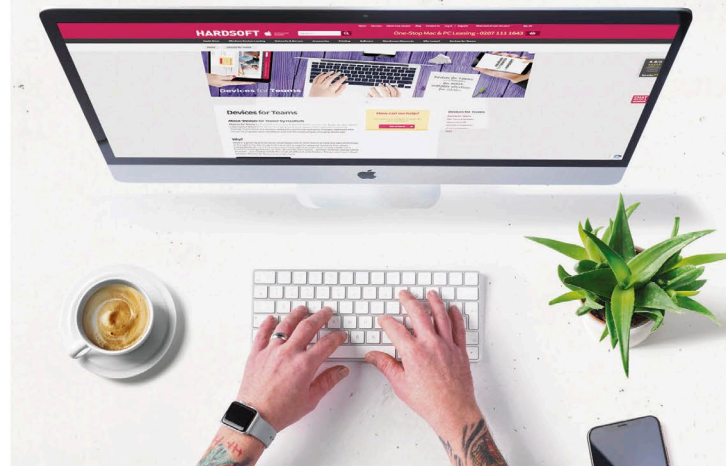

Instantly affordable Today's business models revolve around subscription and flexible leases with inclusive extended warranties, on-call support teams, bespoke software packages and the ability to upgrade mid-term, add to or return the computers. These solutions are tax friendly and kind to cashflow, which pleases the CFO, while your workforce are happy with the latest devices. You can start using a new Apple MacBook - a day after approval - for less than the price of a daily cup of coffee.

Dedicated support We have both tech and support teams on call during the business day. We offer replacement loan machines should you need one and offer the flexibility to people to change, cancel or continue their subscriptions.

Trusted partners HardSoft are the UK's most connected firm to offer all the latest Apple and PC devices to businesses using

innovative subscription offers. Having traded for more than 35 years, being an Apple-approved stockist and having unrivalled access to the UK finance market allows us to offer a complete range of the most up-to-date tech and bespoke finance offers to new customers. We already have 4,000 customers and we're proud of our levels of customer satisfaction.

Great for start ups Getting new computers as a start-up often means compromise. Not with our bespoke start-up deals - we approve 99% of all new applications and you get all the support you need.

This is the modern day way that suits your people, your business, your pocket and your accountant.

WIN

Just insert, tip, pour then enjoy with the Coravin Wine Preservation System Worth £279!

hurstmediacompany.co.uk/competitions/coravin

THE CORAVIN WINE PRESERVATION SYSTEM allows you to pour wine from a bottle without removing the cork. Whether you want a sip, a glass, or more, your last glass will always taste just as amazing as your first - even weeks, months, or years later.

The Coravin Wine Preservation System is easy to use - just insert, tip, and pour. Place the Coravin Wine Preservation System on top of the bottle and push the needle through the cork. So if you like to have just one glass of wine or you prefer a glass of red wine and your partner a glass of white you can enjoy your favourite wine without opening the bottles.

A new camera worthy of the gods

JUST ABOUT AS HOT as you can get in photography at the moment is this pro-spec marvel from Olympus.

The brand new OM-D E-M1X incorporates all the benefits of the Micro Four-Thirds system and some seriously useful advanced features for sports and action photographers. It enjoys intuitive design with integrated vertical grip for superb ergonomic control in horizontal and vertical modes. Camera-shake is a thing of the past - it has the world's best image stabilisation, with up to 7.5 EV steps of compensation for incredible hand-held performance, through the 5-axis IS system.

Plus it has a re-developed autofocus system with a variety of AF target modes and settings, plus the ultimate game-changer for sports and action photographers: intelligent subject tracking. All this is crammed into a super portable dust-, splash- and freeze-proof all-weather body.

Available from late February. See **olympus.co.uk** for more details.

OLYMPUS

One of the world's lightest electric bicycles

THE FURO X IS ONE OF the lightest electric bicycles in the world. It merges power, range, elegance and fun with extreme practicality.

It features a full carbon frame, weighs just 15.5kgs, and folds in seconds. The hydraulic disk brakes are by Shimano, and the 9-speed Sora gears are Shimano's too. The bike delivers 250W of power with 500W at its peak to tackle any hill, and has up to 60km of range with its LG removable battery. It comes with a rear luggage rack; front and rear mudguards; kickstand; wireless turn indicators; and a lighting kit.

Enjoy £150 off with code 'ES150' on our website.
