### Stop overpaying for your energy

Your energy bill is probably one of your biggest monthly outgoings. The best deals available are typically £300/year cheaper than a standard tariff, so switching your supplier could save you a lot of money. But with 73 suppliers offering 400 tariffs to UK households, how can you be sure you're on the best deal for you? We suggest signing up to Flipper.

Flipper is an auto-switcher, not a price comparison website and offers greater savings. It checks the market for its customers every month and 'flips' them onto a new tariff if a saving of £50+ can be made. On average customers save £385 a year as Flipper can switch to a wider range of suppliers and tariffs as soon as a better deal is available. All the suppliers it flips to are approved by Ofgem. Flipper checks supplier performance saying 'if we wouldn't flip family and friends to a supplier, we won't flip anyone to them'.
