You can't beat it! Find your perfect drum kit

DRUM KITS ARE REALLY FUN to play and a great looking instrument. With so many new ways to learn there has never been a better time to start. Most complete beginners can master their first beat within 30 minutes of practice.

Drum kits designed for beginners now offer far better build quality, colour and size choices. With sizes available for any age, budding young drummers can get a drum kit that is in proper proportion to their height making it much easier to play.

If the volume is a concern, new innovations allowing you to reduce the volume of an acoustic drum kit by up to 80% are available too. These low noise options retain the

feel and tone of the drum kit. When it's time to play loud again, these can be removed, and the drum kit can be used at normal volume.

All of our beginner packages include everything you will need to start right away. We are on hand anytime to offer friendly and specialist advice on the right drum set to get you started.

For readers here we are offering an extra 10% off our prices until the end of December. If calling on the phone please quote code CHECKLIST10 or please add the code to when checking out on the website.

SUFFER FROM COLD SORES AT CHRISTMAS?

Then look no further than lipivir®, the must-have this festive season. The revolutionary lip gel is proven to prevent cold sores from appearing, reduce regular outbreaks and ensure normal, good looking lips.

Worried about cold sores preventing you from wearing a Christmas red lip, trying out new makeup you've been gifted or just staying on top of lip balm application during the colder months? lipivir® is a transparent gel which makes application discreet and doesn't affect your lip care routine at all, meaning you can still use lipstick, lip gloss and make-up after use.

Don't wait for cold sores to appear – get protected with lipivir® by applying it up to twice a day (once in the morning and once in the evening) to keep you covered at all times. The lip gel is also neat and small, perfect for taking anywhere with you and easily fitting into any bag or pocket.

Over 85% of the UK population carry the cold sore virus. Some of the most common causes of outbreak activation include harsh sunlight, stress, hormone imbalances and a low immune system. The cold sore virus can be transferred by kissing, when it's active, so avoiding outbreaks can be crucial. Sometimes, adapting your lifestyle choices isn't always enough and this is where quick and easy-to-apply lipivir® steps in. Suitable for vegans and vegetarians, lipivir® is cruelty-free, skin-friendly and contains no preservatives or cortisone.
