SPONSORED ARTICLE EXAMPLE

Ever wondered what your pension is doing for the planet?

Nutmeg's socially responsible portfolios are designed to be both ethical and transparent – so you can see exactly where your money goes. Nutmeg scores investments based on data provided by MSCI, a leader in socially responsible research. If the investment is in a company, the team want to know the company's carbon footprint, how it treats its workers, and whether it has independent and female directors on its board.

Nutmeg's socially responsible pots never invest in firms that make nuclear bombs or controversial weapons. Tobacco, gambling and alcohol may also be grounds for exclusion.

As of 1 November 2019, Nutmeg have opened more than 8,000 socially responsible pots, including stocks and shares ISAs and pensions. These pots are designed to be easy to use, transparent and low-cost.

Why not open a socially responsible portfolio today? Click here or call 0800 33961515.

As with all investing, your capital is at risk. The value of your portfolio with Nutmeg can go down as well as up and you may get back less than you invest. Past performance is not a reliable indicator of future performance. Tax treatments apply.
